WATERWORKS

Our mission has remained steadfast: to elevate the quality of every facet of the bath & kitchen experience.

Behind every truly special company stand committed and creative people who shape its vision and sustain its principles. My parents founded Waterworks more than four decades ago, and I've spent the past 25 years building on that foundation to create a company that is extraordinarily committed to our clients, our employees and the integrity of everything we offer. Over all these years, our mission has remained steadfast: to elevate the quality of every facet of the bath and kitchen experience, as they are the two most important and valuable rooms in the home. Our focus on design authenticity, meticulous craftsmanship and service excellence has given rise to a company like no other.

To develop a product collection that is second to none, we've created our own design and engineering capabilities and cultivated highly specialized workshops and factories to support our demanding needs. And at every juncture, we have committed ourselves to personalized service and long-term relationships. The dedication we promise our clients is a Waterworks hallmark that no other company in our market can match.

I'm pleased to share this overview of our unique modern design collections, which reflect European and American mid-century and contemporary references. Each element is made possible by engineering innovation and an ever-present focus on detail. Our design team is inspired by art, architecture and the extraordinary firms of SheltonMindel and Gachot Studios—collaborators on our modern range.

Our eye is trained on proportion and scale, beautiful materials and the little things that are hard to define but make an object feel special. From warm and organic to pure and minimal to high energy and luxurious, we have the critical elements for your modern spaces.

Enjoy!

Peter Sallick
CEO & Creative Director, Waterworks

We obsess over the details that elevate

every facet of the design experience.

BOND

Statement-Making Modern

Created in partnership with Gachot Studios, Bond represents a level of soul and artistry that's rarely found in modern bath design. Highly versatile, the collection inhabits the full range of modern style, from the austerity of disciplined minimalism to the relaxed appeal of warm contemporary.

Finding Inspiration

Bond draws upon a mix of references, from the Aesthetic Movement of the late 19th century to modern industrial design. A vintage teapot inspired the collection's horn-shaped lever handles, while its textured details reflect classic jewelry pieces and luxurious silver lighters; the knobs and shower trims were modeled after contemporary electronics. The result: a range of elements that are highly distinctive yet streamlined for modern use. Particularly exciting is the application of guilloché, a precise engraving technique, in the Bond components. It's practiced by only a handful of highly skilled artisans today, positioning this collection as unique and rarified.

Three Distinct Series

Bond fittings are grouped in distinct series—each defined by ever-more specialized elements and tied to a common base silhouette. All the design possibilities are carefully curated to ensure a powerful modern statement.

SOLO

A balance of form and function in its truest sense. Streamlined and minimalist with clean, crisp edges. Solo is the only Bond series that has upturned lever handles—expressions of pure form—along with the ability to be made in all Waterworks special-order metal finishes.

SOLO SERIES Faucet with Lever Handles BLS210 | Thermostatic Control with Knob Handle ETH230 | Volume Control with Knob Handle BV130

TANDEM

Contemporary perfection. Choose linear guilloche etching for a striking and textural statement, or a two-tone effect (our new dark nickel finish paired with brass or nickel). The mix of finishes projects a sense of new modern artistry, while the guilloche creates a highly-precise, luxurious look and feel through its hand-applied lines: 240 on each knob, and 80 on each lever.

TANDEM SERIES Wall Mounted Faucet with Guilloche Lever Handle BLS32A | One Hole Faucet with Two-Tone Lever Handle BLS47B | Volume Control with Two-Tone Guilloche Knob Handle BV135 | Volume Control with Guilloche Knob Handle BV134A

UNION

The most lavish of the Bond series, Union presents three additional design elements: an intricate guilloche links pattern; guilloche lines combined with white or black enamel; or pinstripe—a technique in which a black enamel handle is treated with guilloche, revealing the beautiful metal finish beneath the pattern, and then plated in a brass or nickel finish.

UNION SERIES Faucet with Pinstripe Lever Handles BL12E | Thermostatic Control with Enamel Guilloche Knob Handles in White BTH54D | Volume Control with Link Lever Handle BV121 | Volume Control with Enamel Guilloche Knob Handle in Black BV14D

Bond's three series make the collection beautifully versatile. It's pioneering in the way it allows you to integrate new design details in a modern space.

- PETER SALLICK

“

These are investment pieces with longevity and heritage. Whatever the trends are, these will transcend them.
