

EASY CLEAN DURABLE FABRICS

FibreGuard combines the latest Stain Free Technology with high quality, stylish interior furnishing fabric to ensure easy clean low maintenance, with a long lasting look & feel.

FibreGuard technology coats the yarn in the finishing process resulting in an inherent strength and longevity to the stain resistance that will last the life of the fabric.

FibreGuard features a wide variety of fabric types, styles and designs, seamlessly combining technology and style.

- STAIN RESISTANT
- EASY TO CLEAN
- HIGH PERFORMANCE
- DURABLE
- CHILD & PET FRIENDLY
- ENVIRONMENTALLY SAFE

HIGH QUALITY, DURABLE FABRICS

The FibreGuard process is not an after treatment, it is applied at the yarn level and is permanent. Meaning that the stain-free properties in your fabrics will last long after washing or prolonged use. All FibreGuard fabrics undergo numerous textile tests in independent laboratories to ensure that they're durable, reliable, and of consistent quality.

More importantly, extensive environmental testing is carried out to certify our fabrics are safe to use in your home.

EASY TO CLEAN, WASHABLE FABRICS

Our fabrics are manufactured according to stringent standards, ensuring that our FibreGuard easy clean properties are embedded in the manufacturing process – not an after treatment. This means that our fabrics remain easy to clean, wash after wash, stain after stain.

Through constant testing, we have ensured that the clean-ability, luxurious touch, rich colour, and the dimensional stability of the fabric itself are maintained throughout the washing process, and life of the product.

Use just water to clean most stains, for more stubborn stains, use a light application of gentle household soap and water.

ECO FRIENDLY

All FibreGuard fabrics are OEKO-TEX® Standard 100 certified, guaranteeing that our fabrics won't release any harmful finishes or chemicals into the environment and are safe to use by humans and pets.

LUXURIOUS TOUCH, UNDENIABLE STAIN RESISTANCE
