ABOUT THE PATTERNS

DESIGN WITH ÉLAN AND VITALITY.

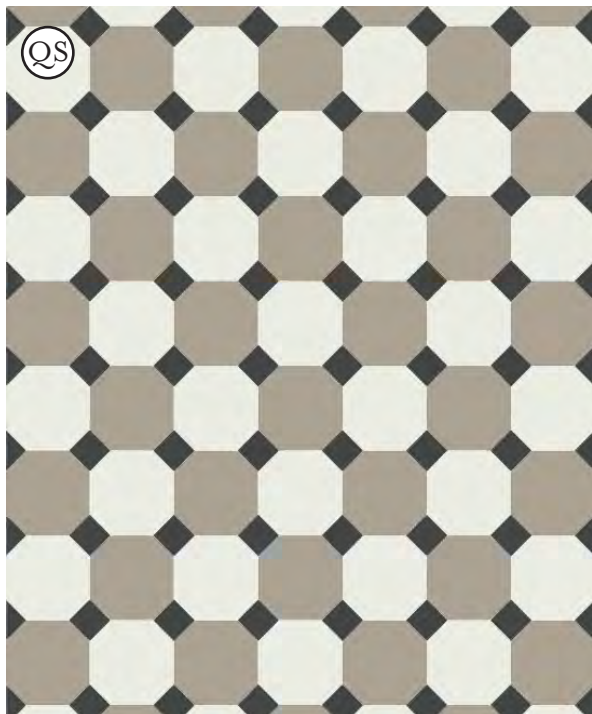

Fashion Viva Tile's assortment of geometric forms and colors to render your unique aesthetic vision. No reservations. No constraints. No apologies for expressing your creative spirit to its fullest.

GEOMETRIC PATTERNS

Consider how a simple field pattern of hexagons, squares, octagons or triangles can be transformed with color to produce limitless possibilities.

Staggered squares, interlocking hexagons, Trompe-l'œil cubes. Gain a new appreciation for geometry (without the math).

Pre-mounted pattern sheets simplify the installation process. Use with or without a complementary border design.

NOUVEAU PATTERNS

Nouveau patterns extend the possibilities of the geometric forms to another time and place. Inspired by the Art Nouveau movement, the arrangements can be bold or subtle, classic or contemporary.

Know you have reached your destination when the space you visualize comes alive with color and form.

VICTORIAN PATTERNS

Unglazed porcelain geometric and encaustic tiles were originally imported from England during the late 1800s, until domestic production of unglazed porcelain mosaics became popular in American homes in the early 1900s. These classic patterns were commonly used in the foyers, bathrooms, corridors and verandas of period homes and municipal buildings of the Victorian era.

A Victorian-era cottage often featured tessellated foyers, verandas, and garden paths to impart an individual personality and a welcoming nature to the home.

Pre-mounted pattern sheets simplify the installation process. Use with or without a complementary border design.
