

NEW COLORWAYS FROM MARESCA TEXTILES

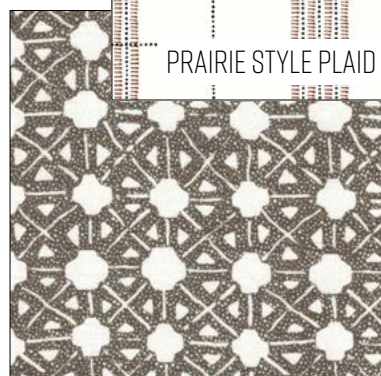

(Chicago, Fall 2024)—This autumn we’ve enhanced our fabric collection with a selection of warm, inviting colorways that breathe new life into three beloved designs. Each fabric, originally introduced in its own collection, now comes together beautifully, unified by the artistry of the same skilled hand and a timeless fall-inspired palette.

HARWICK BOTANICAL

PRAIRIE STYLE PLAID

SEVILLE

Harwick Botanical: A melange of large scale botanical floral drawings sits atop a painterly ground in our Harwick Botanical fabric. Initial inspiration derived from old-wold bedding tapestries discovered in great British casles. Our hand-drawn version incorporates linework and botanicals in a range of rich, romanticized colorways. Repeat: V-45” H-27” | Colorways (from left): Brown, Cornflower, Plum, Russet. Custom coloring available

Seville: Seville is inspired by the architectural schematics of the gothic cathedral in Seville, Spain. The architectural drawings show an aerial view of the building with layers of pattern, from columns to marble, below. Repeat: V-7.5” H-5” | Colorways (from left): Brown, Cornflower, Navy, Willow. Custom coloring available.

Prairie Style Plaid: The prairie style of architecture was a movement away from the excess of ornament and was symbolized by the fusion of form and function. This style of architecture relied heavily on craftsmanship, detail and simplicity. The classic plaid embodies all of these ideals. Geometric and simple, it can be used to add a subtle structured layer of pattern in any room. Repeat: V-13”H-13” | Colorways (fromleft): Navy/Cornflower, Plum/Willow, Russet/Charcoal.

Available to the trade through our studio and these showroom partners:
