

PORTER TELEO

AMITIÉ

AMITIÉ is an overtly delightful pattern that celebrates kindness and the joy of friendship. Featuring whimsical, elegant branches adorned with abstracted blossoms of alpine rose, orange blossoms, and silver wattle, this design evokes the warmth and light of the Mediterranean. Inspired by a walk in the South of France, it brings the freshness of nature and spirit of companionship into any space.

ECHO

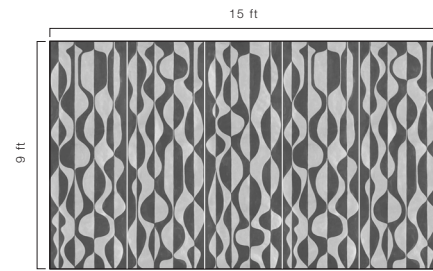

Inspired by the wire sculptures of Ruth Asawa, ECHO utilizes reflective symmetry and contrasting colors to blur the boundaries between foreground and background. This interplay of positive and negative space evokes the sensation of an echo, distorting familiar forms and inviting new interpretations. The illusory nature of this pattern speaks to the power of negative space in our lives, reminding us that absence can be just as impactful as presence.
