## COLLECTION

Lillian August introduces the Antiquaire Collection- a deeply personal expression of the brand's passion for European antiques and timeless design.

Inspired by 18th and 19th century originals, the collection reflects generations of expertise, from founder Lillian August and Dan Weiss, to the next generation, continuing a legacy rooted in *craftsmanship and collecting*.

First conceived over 15 years ago, Antiquaire began as a means to recreate some of our favorite antique forms, drawn from decades of sourcing across Europe, Asia and the US. Today, the collection returns with renewed purpose, inspired by a resurgence of interest in antiques and heirloom quality furnishings.

Rooted in a collector's eye for patina and authenticity, each piece is an exacting interpretation of its original antique form. Layered with character and nuance, the collection is designed to feel *discovered* rather than *produced*.
